

2015 ACAP SYSTEMS CONFERENCE

I.T.'s All About the Quality of Court Information

DAY 1 November 9, 2015 1:00 pm to 5:00 pm, Marriott Hotel, Little Rock, AR

10:30 am	The registration desk opens at 10:30 am and will close at 5 pm.		Software Lab Manning Room Main Floor The Software Lab will be available from 11:00 am to 1:00 pm
1:00 pm	Welcome and Introduction Introductions: Tim Holthoff Welcome: Honorable Lynn Williams Opening Keynote: Dr. Diane Robinson, "Data Quality is Everyone's Job" Announcements: Alex Rogers		
2:30 pm	Break		The Software Lab will reopen at 2:30 pm and remain available until 4:30 pm A software lab will be staffed by AOC, Xerox, and CSI to give you the opportunity to work through questions, get hands-on instruction, and to meet the ACAP and vendor teams that work on system issues. Xerox Contexte, Tybera eFlex, Xerox Juror, MyJuryInfo, Xerox CourtConnect, CSI Intellidact and other applications will be available for tutorials and demos.
2:45 pm	Salon A/B	Salon C	
	Is there a Circuit Court Contexte report for that?	Is there a District Court Contexte report for that?	
SESSION 1	An important part of managing information quality is through monitoring the information that comes out of a system. This session will include a review of reports useful to Circuit Courts, demonstration of some of the latest report modifications and a discussion on plans and innovations that will help the courts maintain a high standard of information quality.	An important part of managing information quality is through monitoring the information that comes out of a system. This session will include a review of reports useful to District Courts, demonstration of some of the latest report modifications and a discussion on plans and innovations that will help the courts maintain a high standard of information quality.	
3:45 pm	Break		
4:00 pm	Fees, Fines, Foes, Funds	What's next in Jury Management?	
SESSION 2	For the last several years, court collections have decreased significantly. The enforcement of court orders, including the collection of fines, is an integral part of a fair and impartial court system. This session explores Contexte accounting with a focus on improving fine and fee collections through the use of tax setoffs, collection agencies, ePay and other opportunities, which rely on accurate information to be successful.	The AOC and the Automation Committee have been working on a business case for the next generation jury management software. This session will update the courts on our progress towards a new jury management solution. Xerox will demonstrate the latest version of their Agile Jury product that is being considered for use in Arkansas.	Software Lab Closes at 4:30 pm
5:00 pm	End of Conference Day 1		

DAY 2 November 10, 2015, 8:00 am to 4:00 pm, Marriott Hotel, Little Rock, AR			
7:30 am	Continental Breakfast Served Outside Salon A/B		Software Lab: Manning Room Main Floor The Software Lab will be available from 8:00 am to 3:00 pm.
8:00 am	The registration desk opens at 8:00 am and will close at Noon.		
	Salon A/B	Salon C	
8:30 am	Are You CourtConnected?	Ask ACAP	
SESSION 3	Public CourtConnect, Courthouse CourtConnect, and Internal CourtConnect have become integral components of the Arkansas judiciary. Criminal justice agencies, law enforcement, and the public now rely on CourtConnect to contain timely, accurate and complete court information. This session explains the different versions and present the latest modifications and how they will improve connections to your court.	You phone them, you email them, and now you can meet them. Come ask those burning questions that keep you up all night.	A software lab will be staffed by AOC, Xerox, and CSI to give you the opportunity to work through questions, get hands-on instruction, and to meet the ACAP and vendor teams that work on system issues. Xerox Contexte, Tybera eFlex, Xerox Juror, MyJuryInfo, Xerox CourtConnect, CSI Intellidact and other applications will be available for tutorials and demos.
9:30 am	Break		
9:45 am	The Road to the Digital Bench	I.T.'s About Safety	
SESSION 4	Electronic case files, orders generated in the courtroom, and digital criminal histories are just the beginning of a judicial decision support system. This session will explore the digital bench and the role of information quality on judicial decision making.	Information quality plays an important role in public and officer safety. The information relied upon must be timely accurate and complete. In this session, our eFiling vendor, Tybera, will demonstrate improvements in their product related to Domestic Violence to help determine whether it might be useful in Arkansas.	
11:00 am	Pick up boxed lunch on the Main Floor and join round table discussions in Salon A/B or join CSI for redaction software demonstration in Salon C		
12:30 pm	e + Quality = eQuality	I.T.'s About Time	
SESSION 5	One way to improve information quality is through single data entry by the originator of the information. eFiling and eCitation move data entry out of the courthouse and back to the information gatherers. This session will discuss how court participation in these two e-services can improve court information quality.	In today's fast-paced world, everyone's time is valuable. For parties and attorneys, the courts should aspire to helping them make the best use of their time at the courthouse and the court's time in disposing of the issues. This session will explore Contexte scheduling, the availability of scheduling information in CourtConnect and Vine, and look for opportunities for the courts to conserve one of its most precious resources.	
1:30 pm	Break		
1:45 pm	Are You CourtConnected?	Ask ACAP	
SESSION 6	Public CourtConnect, Courthouse CourtConnect, and Internal CourtConnect have become integral components of the Arkansas judiciary. Criminal justice agencies, law enforcement, and the public now rely on CourtConnect to contain timely, accurate and complete court information. This session explains the different versions and present the latest modifications and how they will improve connections to your court.	You phone them, you email them, and now you can meet them. Come ask those burning questions that keep you up all night.	
2:45 pm	Break		
3:00 pm	Closing Session and eCourts Drawing - (Salon A/B)		Software Lab Closes at 3:00 pm
	I.T.'s All Related		
CLOSING SESSION	Throughout the conference we explore ideas to manage and improve data quality by monitoring the output, pushing the input back to the originator of the information, and improving the quality of the public's access to and confidence in the Judiciary. The days of court information being stored solely in a vault are long gone. Law enforcement and other agencies now rely on the automated flow of court information to systems and services outside the courthouse. This session will present the importance of court information quality and its impact through automated data transfers to other agencies.
