

**Application Name:**

**CourtConnect Patch Release**

**Release #:**

**1.0**

**Release Date:**

**03/25/2021**

**Summary of Release 1.0:**

The goal of the CourtConnect Patch release is to address defects and make additional updates. The patch may impact one or all listed: Internal CourtConnect, Courthouse CourtConnect and Public CourtConnect

**Release 1.0:**

The Patch Release includes:

1. Docket entry with more than one image record associated (WF#525476)
  - a. Corrected - A folder now appears containing image links. This folder will appear if more than one image record is associated with the docket entry
2. Supreme Court/Court of Appeal specific Milestone tracks were not listed in order (WF#527031)
  - a. Corrected - specific Milestones will be listed in order
3. Parties with future end dates were not displaying (WF#525502)
  - a. Corrected - The party will display until the actual end date
4. Party only security access was not working as intended (WF#542664)
  - a. Corrected - The user must be listed as a case Party to view a specific case type
    - i. Party only security access is determined by the individual user security access
5. Total Balance owed displayed incorrectly on some District Court cases (WF#525500)
  - a. This occurred when the user security access:
    - i. CTVUCLN accounting access is set to a specific Court Code and XX for all Location Codes (CC/XX)

ii. COASECR access is set to a specific court Code and specific Location Code  
(CC/CI; CC/JV; CC/CO; CC/LC)

b. Corrected – Users can view Total Balance Owed on District Court cases
